EXPERIENCE

Odoo Website Developer August 2025 – December 2025
Rspot Solutions Inc.

- Designed and developed dynamic websites using Odoo’s Website Builder and QWeb templating system.
- Customized front-end layouts using HTML, CSS, JavaScript, to create responsive, user-friendly designs.
- Applied SEO best practices using Odoo’s built-in tools to improve website visibility and performance.
- Collaborated with cross-functional teams. To gather requirements, ensure design consistency, and deliver business-ready web solutions.

Odoo Helpdesk. August 2025 – December 2025
Rspot Solutions Inc.

- Successfully configured and implemented the Odoo Helpdesk module to streamline support ticket management and improve customer service workflows.
- Set up Helpdesk teams, SLA policies, ticket stages, and automation rules to ensure smooth operations and timely issue resolution.
- Integrated Helpdesk with related Odoo apps (e.g., Sales, Email, Live Chat) to enable seamless communication and efficient support handling.
- Customized ticket categories, templates and workflows to align with company processes and client requirements.
- Performed end-to-end testing and user training to ensure smooth adoption and minimal disruption during rollout.
- Monitored system performance and support metrics, applying improvements for better user experience and response times.

Front Office Assistant Aug 2024 – Nov 2024
Torres Traveller’s Inn

- Managed front desk operation at a family-owned inn, including guest check-ins and check-outs, room assignments, and handling walk-in and online inquiries.
- Coordinated and confirmed guest booking from online platforms (e.g., Booking.com, Agoda, and direct channels), ensuring accurate availability and prompt customer communication.
- Delivered exceptional customer service by addressing guest needs, resolving issues, and enhancing overall guest satisfaction during their stay.
- Maintained reservation records, processed payments.
- Assisted in updating digital listings, responding to online reviews, and contributing to the inn’s positive online reputation.
- Assigned to manage worker payments, including tracking schedules and distributing wages on time.

PROJECTS

XU HSO IMS | Hostinger, MySQL, HTML/CSS, JavaScript, Gmail SMTP, Blade, Laravel, Jun 2025
Backend Developer / Full-Stack Developer

- Designed and implemented core backend functionalities using Laravel (MVC architecture).
- Integrated real-time stock level monitoring with automatic alerts for low inventory and expiring items
- Configured automated email notifications using Gmail SMTP.
- Created a role-based access control system for Superadmin and Campus Admin with their specific permissions.
- Built CRUD functionalities for items, inventory users, and storage locations.
- Generated dynamic reports for inventory status and expiration logs

- Integrated Google OAuth 2.0 for single sign-on (SSO), streamlining user authentication flows and enhancing security across web and mobile clients.
- Conducted testing and user training sessions with HSO staff for feedback and improvements.
